RESEARCH CONSENT FORM

Project Title: Walking Around Study (Condition: ___________________________)

Principal Investigator: Professor Susan Brennan
Co-Investigators: Profs. Marie Huffman, Gregory Zelinsky; Graduate Students Karla Batres, Katharina Schuhmann, Franco Amati, Xujin (Julia) Zhang

Department: Psychology

You are being asked to be a volunteer in a research study. You must be a native speaker of English and 18 years old or older in order to participate.

PURPOSE The purpose of this study is to learn about how people use and process language when one or both people are mobile.

PROCEDURES If you decide to be in this study, your part will involve doing one or more simple tasks that involve language and/or communication.

- You may be scheduled to participate either alone or with another person.
- You may be asked to speak aloud (for instance, to give directions via cell phone to another person who is walking around).
- You may be asked to walk around campus while following directions given to you on a cell phone.
- You may be asked to fill out a short questionnaire.
- Your responses and what you say may be recorded (logged, audiotaped, or videotaped) for data analysis later. If you sign a separate release form, a recording may be shared anonymously with other language researchers or used later as stimuli in another experiment (e.g., other subjects may listen to what you say or may see you speaking).
- The experimental session is expected to take one hour or less, unless you signed up for a longer time slot.
- You may be given the option of returning later to participate in another session.
- At the end of your participation, you will be interviewed about your experience and fully debriefed about the experimental hypotheses.
